PROFILE

Driven Cybersecurity enthusiast passionate about ethical hacking, cryptography, and network defense, actively building skills through hands-on projects and real-world challenges. Eager to contribute to security-focused teams and gain practical experience. Committed to continuous learning and staying updated with the latest cybersecurity trends.

INTERNSHIP EXPERIENCE

Cybersecurity Intern - Code Alpha (Virtual Internship)
Feb 18 – Mar 18, 2025

- Learned packet sniffing using Wireshark and basic network monitoring.
- Simulated phishing attacks and implemented foundational detection strategies.
- Gained exposure to real-world cyber threats and mitigation practices.

PROJECTS

- Phishing URL Detector: ML-based Python model to detect malicious URLs.
- Password Cracking & Hashing: Brute-force exploration and secure hashing implementation.
- Cryptography Algorithms: Classical encryption/decryption algorithm implementation.
- Securing User Registration Systems: Secure prototype for authentication & input validation.
- Simple Network Sniffer: Python tool to capture and analyze network packets.
